

# One Day With My Family

## A Photographic Service from OAKTREEWEB

Our goal is to capture events of one day in the life of your family. The purpose is memory preservation of your most precious moments. These moments include sharing love, laughing, crying, enjoying life, hopes, dreams, adventures, chuckles and goofs. The photo shots are taken in doors and outside, in natural light. The shoot will include many candid and formal poses in the natural setting of your choice or a suggestion in consultation with a lead photographer from our studio team.

There are three (3) photo session options. Each session includes a CD of all hi-resolution images of the shoot from which you can choose to print or publish a photo book. Images will be made available in a proofing gallery online to choose selections to print.

### Example Session:

**Photos at Start of Day**  
**Photo Outing at Remote Location**  
**Photos Back At Home**  
**Photos at Close of Day**

### Sessions

**Session 1 – An all day photo shoot 5-8 hours. Can be broken into 2 half day sessions of 4 hours each. This gives you the opportunity to shoot at home one day and at a remote location the other day.**

**Session 2 – Consists of 2 hours at one location.**

**Session 3 – Consists of 4 hours at 1 or 2 locations.**
